28. Saxon Investors Roadshow

24 April 2025 | 1:00 PM – 6:00 PM |
Bluelion | Josefstrasse 219 | 8005 Zurich, Switzerland

Program

12:30 PM   **Check-In**

1:00 PM   **Welcome at futureSAX x Bluelion**

1:15 PM   **Keynote "Market Insights in Advanced Computing and Electronics"**
               Ion Hauer, Principal, APEX Ventures, Munich

1:30 PM   **Pitch Session I: Life Science**

(1) Citus AG (Dübendorf)

Short description	Citus means data driven technology for personalized skin care. Citus' innovative skin characterization tool, NIMBLEeva, enables objective and non-invasive assessment of skin.
Achieved milestone	MVP
Funding round	Pre Seed, 1.200.000 CHF

(2) diamics GmbH i. Gr. (Dresden)

Short description	diamics develops and produces fully automated, device-independent lab-on-a-chip platforms based on chemofluidics for high-precision point of care testing.
Achieved milestone	PoC
Funding round	Pre Seed, 5.750.000 €

(3) eCovery GmbH (Leipzig)

Short description	eCovery is the number one destination for digital physiotherapy in Germany: With free offers, prevention courses, health insurance contracts for therapy, and the new 'App on Prescription,' the company is available in every phase of life and unique.
Achieved milestone	Market Traction
Funding round	Series A, 2.500.000 €

(4) PG40 GmbH (Leipzig)

Short description	COWSENSE revolutionizes dairy farming with an innovative sensor solution for metabolic monitoring. By using printed organic electronics, it measures important metabolic markers in real-time. Farmers receive precise data for monitoring the health of their cows, enabling early detection of diseases and targeted interventions.
Achieved milestone	MVP
Funding round	Series A, 2.500.000 €

(5) TEDIRO Healthcare Robotics GmbH (Leipzig)

Short description	TEDIRO enables embodied AI in healthcare, addressing key challenges such as labor shortages, rising costs, and quality of care. Their robot applications enable hospitals to reduce costs, secure revenue and attract patients seeking quality care. Robot manufacturers can move upstream in the market with devices that run their apps. They recently launched their first app for a robot as a medical device.
Achieved milestone	Market Traction
Funding round	Seed, 3.000.000 €

2:20 PM **Break: Networking, One-on-One-Meetings**

3:00 PM **Pitch Session II: Environment**

(6) Cotierra AG (Zurich)

Short description	Contierra AG is building resilient, low-carbon agricultural supply chains through decentralized biochar solutions. It empowers companies to sequester gigatons of carbon in tropical soils.

Achieved milestone	Market Traction
Funding round	Seed, 4.000.000 CHF

(7) DEM – Deutsche E-Metalle AG (Dresden)

Short description	DEM extracts critical raw materials for the energy transition with fair collaboration and local value creation using innovative technology. Their flagship project is an initiative to extract lithium from salt lakes in Argentina, covering an area of 70,000 hectares.
Achieved milestone	PoC
Funding round	Series A, 1.500.000 €

(8) FASTRACK GmbH (Weischlitz)

Short description	FASTRACK aims to offer an innovative bicycle transport concept for the European market, which has the potential to revolutionize the transportation of bicycles not only in the private sector but also in tourism and public transport.
Achieved milestone	Market Traction
Funding round	Pre Seed, 250.000 €

(9) ThermoCube UG (Plauen)

Short description	ThermoCube has developed a novel low-cost heat storage system to series production maturity. They generate revenue both through the manufacturing and sale of these systems and in collaboration with partner companies as providers of so-called thermal battery heat networks.
Achieved milestone	MVP
Funding round	Seed, 750.000 €

(10) REOR20 AG (Zurich)

Short description	REOR20 combines physics and AI to rapidly simulate floods at scale, helping governments, businesses, and communities worldwide better predict and prepare for devastating flood events.
Achieved milestone	MVP
Funding round	Seed, 1.000.000 CHF

3:50 PM   **Break, Networking, One-on-One-Meetings**

Pitch Session III: AI-Automation

(11)   Kuafu (Dübendorf)

Short description	Kuafu provides an AI-based energy management platform for electrical grid operators to manage grid congestion by smartly controlling local resources from e-mobility and smart buildings to respond to grid needs and enable a cost-efficient grid decarbonisation.
Achieved milestone	MVP
Funding round	Pre-Seed, 400.000 CHF

(12)   Peeriot GmbH (Leipzig)

Short description	Peeriot offers a low-code software suite that enables self-organized IoT devices and IoT networks, simplifies the information exchange of IoT systems by a factor of 10x, and serves as a backbone for autonomous, AI-based devices. NBT potential.
Achieved milestone	Market Traction
Funding round	Seed, 3.000.000 €

(13)   Points2BIM GmbH (Chemnitz)

Short description	With the system, architects, planners, and construction companies save up to 90% of the time when creating their BIM models. Additionally, it offers the creation of measurements, progress monitoring, or the creation of digital building models from 3D point clouds.
Achieved milestone	Market Traction
Funding round	Seed, 3.000.000 €

(14)   Scenario X SA (Geneva)

Short description	Scenario X empowers financial institutions with AI-Quantum analytics, to transform uncertainty into opportunity. The solution helps reduce cost by up to 50 % and improve efficiency by up to 60 %.

Achieved milestone	MVP
Funding round	Pre-Seed, 2.500.000 CHF

(15)   Semodia GmbH (Radebeul)

Short description	Semodia defines the future of industrial automation with modular, manufacturer-independent solutions. Their plug-and-produce technology accelerates processes, reduces costs, and enables seamless system integration for a globally connected, AI-enabled Industry 4.0.
Achieved milestone	Market Traction
Funding round	Series A, 4.000.000 €

5:10 PM   **Get-Together, Networking, One-on-One-Meetings**

6:00 PM   **Wind-Down of the event**
