

31. Saxon Investors Roadshow

March 11, 2026 | 1 PM – 5 PM | HyHyve Map (Online)

Program

- 1:00 PM** **Check-in**
- 1:10 PM** **Welcome: introduction to the platform and event**
- 1:30 PM** **Pitch session I: Enterprise Software & Applied AI**

(1) SUPA (Leipzig)

Short description	SUPA is a serverless AI platform built for developers, removing the primary barriers to AI adoption - infrastructure complexity and cost - by offering a platform where users select an open-source model and instantly get a scalable, production-ready API.
Achieved milestone	MVP
Funding round	Seed, 500.000 €
Speaker	Christian Krey, Founder

(2) Cybessure Labs (Dresden)

Short description	Cybessure is the NIS2-Native Compliance OS for the European Digital Decade, empowering critical industries to effortlessly master mandatory NIS2 and CRA regulations by automating complex compliance processes.
Achieved milestone	MVP
Funding round	Pre Seed, 270.000 €
Speaker	Pramod Jayaram Kumar, Founder & CEO

(3) Worksdone (Dresden)

Short description	Worksdone is an AI-first, voice-driven SaaS platform for service businesses that turns natural speech into correctly executed tasks, projects, time tracking and financial actions.
Achieved milestone	MVP
Funding round	Seed, 750.000 €
Speaker	Benedikt Landua, Co-Founder & CTO

(4) Rhizome (Leipzig)

Short description	Rhizome is a web application for collaborative decision-making in teams. It offers an asynchronous, structured and guided decision-making process, improving the organization's decision speed and quality.
Achieved milestone	MVP
Funding round	Pre Seed, 200.000 €
Speaker	Clemens Kommerell, Co-Founder

(5) HYBEAM (Leipzig)

Short description	HYBEAM is a mixed-reality platform for hybrid workshops that integrates remote participants into the physical room as avatars. It enables equal interaction, shared 3D collaboration, and true co-presence across locations.
Achieved milestone	MVP
Funding round	Seed, 800.000 €
Speaker	Annika Augner, Co-Founder

(6) PronunCise (Leipzig)

Short description	PronunCise is a communication-focused language tool developed with Europe's leading language schools, utilizing a unique phonetic AI model to provide true pronunciation feedback across 52 languages.
Achieved milestone	PoC
Funding round	Pre Seed, 800.000 €
Speaker	Alfred Kaiser, Founder

2:10 PM **Networking**

2:40 PM **Pitch session II: BioTech & Life Science**

(7) Megunto GmbH (Leipzig)

Short description	Megunto is an AI-powered learning platform for medical students for their oral exam preparation. Users answer exam-relevant questions orally and receive immediate, individualized feedback on content and expression.
Achieved milestone	Market Traction
Funding round	Seed, 600.000 €
Speaker	Tim Berthold, CEO

(8) AI-Driven Therapeutics GmbH (Leipzig)

Short description	AI-Driven Therapeutics develops the "CoScientist", an autonomous AI platform that turns complex AI workflows into transparent, explainable, and fast R&D processes, enabling SMEs to design better proteins in days instead of months.
Achieved milestone	MVP
Funding round	Pre Seed, 800.000 €
Speaker	Dr. Fabian Liessmann, CEO

(9) Bio SAW GmbH (Dresden)

Short description	BioSAW develops a SAW-based biosensor platform for patient-near diagnostics, enabling fast, quantitative biomarker measurements directly at the point of care, reducing dependence on laboratory workflows.
Achieved milestone	PoC
Funding round	Pre Seed, 1.000.000 €
Speaker	Dr.-Ing. Walid-Madhat Munief, Managing Director

(10) ESTER Biotech GmbH (Leipzig)

Short description	ESTER develops leading enzymes for polyester degradation. Using patented screening platforms and artificial intelligence, the enzymes are optimized to convert previously non-recyclable plastics into food-grade materials.
Achieved milestone	PoC
Funding round	Seed, 1.500.000 €
Speaker	Martin Hirschfeld, Managing Director & Co-Founder

3:05 PM **Networking**

3:30 PM **Pitch session III: Advanced Manufacturing**

(11) FiberFlow (Leipzig)

Short description	FiberFlow has developed a process that separates previously inseparable material mixtures from textile waste into pure fractions - making recycling possible and enabling companies to save raw materials and costs.
Achieved milestone	Market Traction
Funding round	Pre Seed, 400.000 €
Speaker	Lena Strobl & Ludwig Morgenstern, Founder

(12) Senodis Technologies GmbH (Dresden)

Short description	Senodis enables tamper-proof identification and authentication of industrial components. The software turns standard laser markings into secure, unique signatures that cannot be replicated.
Achieved milestone	MVP
Funding round	Pre Seed, 750.000 €
Speaker	Dimitri Horn, Co-Founder

(13) Peeriot GmbH (Leipzig)

Short description	Peeriot is a Deep-Tech Software Startup in IoT, building a distributed operation system for edge systems. It offers software which can support devices to act autonomously in a swarm and reduce cost by 10x.
Achieved milestone	Market Traction
Funding round	Series A, 3.000.000 €
Speaker	Roy Kaiser, Managing Director & CFO

(14) Morpheus Space GmbH (Dresden)

Short description	Morpheus Space is solving the mobility challenges satellite operators face in orbit. The company delivers satellite propulsion systems on an industrial scale to ensure European sovereignty in space.
Achieved milestone	Market Traction
Funding round	Series A, 2.300.000 €
Speaker	Kevin Lausten, CEO

(15) Chipmetrics Ltd. (Dresden)

Short description	Chipmetrics develops advanced test chips and test wafers that enable precise validation of ALD, CVD and PVD processes in 3D semiconductor manufacturing.
Achieved milestone	Market Traction
Funding round	Series A, 5.000.000 €
Speaker	Stefan Polzin, COO

4:00 PM **Voting for the “Pitch of the Day” award and networking**

4:30 PM **Moderated breakout sessions:**

Choose one of the sessions to deep dive into your selected topic & discuss your perspective with other investors and start-ups:

- **Enterprise Software & Applied AI**
moderated by Michael Adersberger, TWIP Impact Ventures
- **BioTech & Life Sciences**
moderated by Dr. Jule Goike, High-Tech Gründerfonds
- **Advanced Manufacturing**
moderated by Alain le Loux, Cottonwood Technology Fund

5:00 PM **Outlook & Closing**
